Marines,

29th April 2019

As the weather breaks and the shooting season begins to ramp up I would like to push out to the membership the following. The rules for the 2019 MCL National Postal Match incorporate changes to help streamline and clarify score submissions going forward. There have been issues with some not taking the time to review the rules and consequently submitting with error. The newest rules now have different registration forms for rifle and pistol, teams and individuals. The intent is to get clarity from team captains and individuals as to how they intend to be scored. There are five matches within the MCL Postal Match. Rifle-individual, Rifle-team, Pistol-individual and Pistol-team. Also an open class for pistol. Each with their own set of awards. As the committee works to expand and improve this match it is important that those submitting scores use the latest rules. The 2019 rules will be available on the National website in the library section under program documents (<https://www.mcleaguelibrary.org/>). Eventually also available in programs section. A copy also attached for conveyance,

Good shooting and Semper Fi

Scott R. Neff Sr.,

National Marksmanship Committee-Chair
